SUMMARY

I am a Computer Science and Engineering student with expertise in frontend development, particularly in React.js, HTML, CSS, and JavaScript, and proficient in backend technologies like Node.js and Express. I focus on creating intuitive, responsive user interfaces and expanding my mern-stack development skills.

SKILLS

Frontend Development : HTML5, CSS3, JavaScript, React.js

Backend Development : Node.js, Express

Programming Languages: Java, Python

Databases: MongoDB, SQL

Version Control: Git, Github

PROJECTS

E-Commerce

[e-commerce-one-woad-52.vercel.app/](#)

- Developed a responsive e-commerce site with React and Tailwind CSS, increasing mobile engagement by 40%.
- Integrated interactive product features like hover effects and star ratings, boosting click-through rates by 20%.
- Implemented a testimonial carousel with react-slick and AOS, improving user engagement by 15%.
- Optimized for all screen sizes with Tailwind's responsive utilities, achieving a 95%+ mobile-friendly rating.

Book Store

[book-store7.netlify.app/](#)

- Developed a responsive bookstore app with React.js, enhancing user experience across devices.
- Integrated a custom carousel using react-slick, increasing mobile engagement by 30%.
- Optimized UI/UX with Tailwind CSS, reducing page load times by 40%.

Text Utils

[text-utils-seven-eta.vercel.app/](#)

- Built a dynamic UI with React.js, achieving fast page load times and 20% faster rendering.
- Implemented theme toggle, enabling instant switching between dark and light modes for improved user experience.
- Enabled clipboard functionality, supporting copying and clearing text up to 5000 characters with a single click.
- Provided real-time feedback with an alert system, improving user interaction with 90%+ user satisfaction based on feedback.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Parul University • Vadodara, Gujarat • 2025 • 7.65

CERTIFICATIONS

Java Tools

Infosys • 2023

- The certification helps in enhancing your skills and knowledge in Java, which is one of the most widely used programming languages in the software development industry.

Basics of Python

Infosys • 2023

- It validates your basic knowledge of Python, covering essential concepts like variables, data structures, control flow, and functions, which are fundamental for many tech roles.
-
